Professional Summary

Advanced Information Systems Engineering student with hands-on experience in backend and frontend development, automation workflows, and agile methodologies. Strong background working collaboratively in technical teams, contributing to scalable software solutions, web applications, and AI-driven automations. Passionate about continuous learning, problem-solving, and software development.

Professional Experience

Red Salud Mendoza (RST) – Backend & Frontend Intern(19-5-2024 / 20-8-2024)

3-Month Internship

- Worked on backend and frontend development tasks in collaborative software projects using JavaScript, TypeScript, React, Python, HTML, CSS, Git, and GitHub.
- Participated in agile workflows using SCRUM and Kanban methodologies.
- Contributed to the development and maintenance of scalable web solutions.
- Collaborated with multidisciplinary teams to improve project efficiency and delivery.

Personal Project – Ruby on Rails Administrative Management System(2025)

Developed a Ruby on Rails web application for appointment and administrative process management. Applied Object-Oriented Programming (OOP), Model-View-Controller (MVC) architecture, and frontend technologies including HTML, CSS, JavaScript, and TypeScript.

OSEP Mendoza – Automation & AI Intern(18-3-2026 / present time)

- Developed WhatsApp automation workflows using n8n.
- Worked with PostgreSQL databases for data management and integration.
- Integrated AI solutions using OpenAI Platform APIs.
- Collaborated in automation and optimization projects focused on operational efficiency.

Academic Projects

Participated in multiple academic final projects focused on software development, web applications, and e-commerce solutions. Worked primarily in collaborative environments applying agile methodologies and modern development practices.

Education

- Universidad Tecnológica Nacional – Information Systems Engineering (4th Year, 2021 – Present)
- Instituto Leonardo Murialdo – Bachelor's Degree in Economics and Accounting Administration
- Rainbow School – Primary Education

Technical Skills

HTML, CSS, JavaScript, React, Java, Spring Boot, SQL, PostgreSQL, Python, n8n, OpenAI Platform, Git, Agile Methodologies, SCRUM, Kanban, Figma, Backend Development, Frontend Development, AI Automation, Web Development.

Languages

English – C1 Level (First Certificate Exam)

Career Objective

Seeking opportunities to continue developing professionally in software development, automation, and AI integration environments while contributing with adaptability, teamwork, and strong problem-solving skills.
