Tomás Via

Information Systems Engineering Student | Software Development & Cybersecurity

Mendoza, Argentina · +54 9 261 653-6500 · tomasgabrielvia@gmail.com · linkedin.com/in/tomas-via-b39988215
Argentine & Italian citizen (EU work authorization)

PROFESSIONAL SUMMARY

Final-year Information Systems Engineering student pivoting into cybersecurity, with the **BASE4 Security Cybersecurity Foundations Bootcamp** completed and hands-on experience building and deploying backend systems in the health sector. Currently seeking new opportunities.

CERTIFICATIONS & TRAINING

Cybersecurity Foundations Bootcamp — BASE4 Security Aug – Sep 2026

Cybersecurity Institute · Certificate of Approval · Credential ID: B4-2026-ELYDF5 · 8 modules + final integrative exam

- **Defensive:** Blue Team & Security Operations; Incident Management & Digital Forensics; Threats, Attacks & TTPs.
- **Offensive & AppSec:** Offensive Security & Ethical Hacking; Application Security & DevSecOps.
- **Foundations & GRC:** Systems Fundamentals; Cybersecurity & Digital Ecosystem; Risk, Governance & Compliance.

Ekoparty Security Conference — Buenos Aires Oct 2026

Attendee at Latin America's leading information security conference.

PROFESSIONAL EXPERIENCE

OSEP Mendoza — Automation & AI Intern Mar 2026 – Present

Supervised Professional Practice (PPS)

- Designed and built **Whalma**, an intelligent WhatsApp chatbot for member services using n8n, Python, PostgreSQL and LLM APIs (OpenAI Platform).
- Deployed services in Docker containers and managed PostgreSQL data storage and integrations.
- Developed a Flask web admin panel to monitor chatbot conversations; diagnosed and resolved Python 3.13 / psycopg2 dependency compatibility issues.
- Collaborated on automation and optimization projects focused on operational efficiency.

Red Salud Mendoza (RST) — Backend & Frontend Intern May 2024 – Aug 2024

- Developed and maintained web applications using JavaScript, TypeScript, React, Python, HTML and CSS.
- Managed code with Git and GitHub within agile teams following SCRUM and Kanban.
- Worked with multidisciplinary teams to improve delivery efficiency on collaborative projects.

PROJECTS

Administrative Management System — Ruby on Rails (Personal Project) 2025

Web application for appointment and administrative process management, built with MVC architecture and OOP principles, plus HTML, CSS, JavaScript and TypeScript on the frontend.

Academic Final Projects — UTN FRM 2021 – Present

Team-based development of web applications and e-commerce solutions using agile practices.

EDUCATION

Universidad Tecnológica Nacional, Facultad Regional Mendoza 2021 – 2027 (expected)

Information Systems Engineering · Final year

Instituto Leonardo Murialdo

High School Diploma · Economics and Accounting Administration

TECHNICAL SKILLS

Security	Security operations & monitoring, incident response, digital forensics fundamentals, threat analysis (TTPs), ethical hacking fundamentals, AppSec/DevSecOps, risk & compliance
Programming	Python, JavaScript, TypeScript, Java, SQL, HTML, CSS
Frameworks	React, Flask, Spring Boot, Ruby on Rails
Infra & Data	Docker, PostgreSQL, Git/GitHub, n8n, OpenAI Platform / LLM APIs
Methods & Tools	SCRUM, Kanban, Figma

LANGUAGES

Spanish — Native · **English** — C1 (Cambridge First Certificate)
